

I was waiting for the train
When I bumped into this girl
She said do you remember me
And would you like to talk a while?
She took me by surprise
There was something in her eyes
That I knew I felt in me
She said
When you find out let me know
And when you find it then you'll know

Heading Southbound and out of Downtown
I'm drawn to you like a moth to a flame
See the sun light beaming through the window
Reflecting from her eyes, I think I'm burning
I fell right where I stood into your arms
I fell right where I stood

As our train pulled into the station
At platform two
I said I'm getting off here
So what's it gonna be?
She took me by surprise
She said if I come with you now
I'm never gonna leave
I said
When you find out let me know
And if you find it then you'll know

As we surfaced back into the daylight
I was struck by a thought that hadn't hit me before
This might be the one right moment in a lifetime
When opportunity just knocks on your door
