

# My Kinda Woman

Mr. Big

Way back in the early days  
1946 She walked in with the look o'love  
That girl had bedroom eyes  
Fire engine lipstick lips  
All heads turned ooh with a human desire  
It set the world on fire.

My kinda woman  
Someone's yesteryear dreams  
That's my kinda woman  
I could tear down the silver screen

A fallen woman femme fatale  
her body screamed heartbreak  
Hotel...brains and beauty  
Break down the walls, I fall  
Down, to my knees,  
When I see her picture in the  
Movie magazines  
All heads turned ooh for the lady in red  
Bring up the house lights and say

My kinda woman  
Bring back those yesteryear dreams  
My kind woman help me  
Tear down the silver screen

Picture perfect  
X marks the spot  
There's just no way  
To tell you how hot  
My kinda woman

If I could go back in time  
To the right place eye to eye  
Magic to burn ooh with a human desire  
She set the world on fire

My kinda woman  
Someone's yesteryear dreams  
My kinda woman  
I could tear down the silver screen  
My kinda woman  
Bring back those yesteryear dreams  
And that's my kinda woman  
Help me tear down the silver screen
