

The Light Of Day

Mr. Big

Had a good iii-dea, baby
Leavin' town, look for somethin' new
When I find myself believe all the lyin'
Need get out, to find what's true
Closed my eyes and put my finger down
Land anywhere, on the map
I won't stop, or think much about it
It's my decision, and that is that
Got a good idea now baby
No turning back

Rollin & tumbling I drove all night
Everywhere I look, is just... outta sight
Now lady madonna can pray
But will I ever see the light of day

First I turned up in oklahoma
Not sure, what brought me here
Took a wrong turn in albuquerque
Bus driver man he can't steer
Don't matter, where I'm going
Long as I can leave my bags behind
Only bring, what's in my heart now
Find a good place to free my mind
There ain't no way now, no never baby
No turnin' back

Rollin & tumbling I drove all night
Everywhere I look, is just... outta sight
Now lady madonna can pray
But will I ever see the light of day
The moon climbs up and the sun crawls down
One last stand in a one horse town
Now lady madonna can pray

But will I ever see the light of day
You might think, that I'm too lazy
Livin' life the way I do
But I'll know the place, when I find it
Just come along, I'll show you too
Got a good idea now baby
No turnin' back

Rollin & tumbling I drove all night
Everywhere I look, is just... outta sight
Now lady madonna can pray
But will I ever see the light of day
When the moon climbs up and the sun crawls down
Say goodbye to this one horse town
Now lady madonna can pray
But will I ever see the light of day
