It's not so easy getting up so early every day so much responsi bility

In the morning when my eyes are falling out my head I look at h im and he starts my engines

That kid is rocket fuel (please please go to sleep)

When I fall as leep thats his cue to start screaming wanna pull $\operatorname{\mathsf{my}}$ hair out

He said "da da" yesterday and make it all worth it

I looked at him and couldn't help but grin
