

## Knife Fight

### Municipal Waste

One s;ashers fate to rule the streets  
A game of death he must compete  
A piercing blade to the throat  
Will end the terror the knife invoked

An unknown soldier drew the line  
A mark of death he soon would find  
In a twist of fate he could prevail  
A game of bloodshed  
That one would fail

Falling to the pavement  
Blade in hand  
One survivor  
ONE DEAD MAN  
Ending all hope of compromise  
The fight is over when one man dies

His blade struck fast with thrashing might  
Sending death, his chance was slight  
A splatter of red in the black of night  
Blood on the street  
The deadly knife fight!
