

## Media Skeptic

## Municipal Waste

Some may say I'm too distrustful  
You might think I've lost my mind  
The truth is I have the common sense to  
Red between the lines

Through media exaggerations  
Lies to sell more publications  
Honesty's more complicated  
Another pack of lies

Newscasters to evangelists  
The same problems always exist  
From computers to journalists  
It's not so fair and balanced

You might think I overreact  
But TV's got me paranoid  
Real life turned to entertainment  
To fill some desperate void

Weekly media sensations  
All to keep the fools in tune  
Just to make the next deadline  
They'll sacrifice the truth

They will sacrifice the truth

Descensitize the world

Consume!

Forever be the skeptic
