

It's happening soon  
It's happening soon  
It's scent has been blowing in my direction  
To me it is new  
To me it is new  
And it's not gonna change for anybody

And it's gonna be  
Our last memory  
And it's led me on  
And on to you

It's got to be here  
It's got to be there  
It's got to be now  
Or I'll lose forever

To me it is strange  
This feeling is strange  
But it's not gonna change for anybody

And it's gonna be  
Our last memory  
And it's led me on  
And on to you

Accuse me  
Trust me  
I never knew  
That you were the one  
You were the one  
Oh

And it's gonna be  
Our last memory  
And it's led me on  
And on to you

And it's gonna be  
Our last memory  
And it's led me on  
And on to you
