

My Only Rescue

Museum

Give me faith to wait on You
Give me peace to be still
You're the only hope I lean on
Give me faith to wait on You

In my darkest hour I see
You will not forget me
When I'm lost and so afraid
Your love still remains

You're my only rescue
In a world full of let down
When it's all falling down in Your love I am found
You're my only rescue

In my strength be stronger still
In my weakness be revealed
When my world's crashes down, in the chaos here I've found...

You're my only rescue
In a world full of let down
When it's all falling down in Your love I am found
You're my only rescue

You are love unfailing, hope unending, You will always be
In your arms I find my strength will rise, forever I believe

When my world crashes down, in the chaos all around

You're my only rescue
In a world full of let down
When it's all falling down in Your love I am found
You're my only rescue
[x2]

My rescue, when it's all falling down, You're my rescue
