My Chemical Romance

The Sharpest Lives

Well it rains and it pours When you're out on your own If I crash on the couch Can I sleep in my clothes? 'Cause I've spent the night dancing I'm drunk, I suppose If it looks like I'm laughing I'm really just asking to leave

This alone, you're in time for the show You're the one that I need I'm the one that you loathe You can watch me corrode like a beast in repose 'Cause I love all the poison Away with the boys in the band

I've really been on a bender and it shows So why don't you blow me a kiss before she goes?

Give me a shot to remember And you can take all the pain away from me A kiss and I will surrender The sharpest lives are the deadliest to lead A light to burn all the empires So bright the sun is ashamed to rise and be In love with all of these vampires So you can leave like the sane abandoned me

There's a place in the dark where the animals go You can take off your skin in the cannibal glow Juliet loves the beat and the lust it commands Drop the dagger and lather the blood on your hands, Romeo

I've really been on a bender and it shows So why don't you blow me a kiss before she goes?

Give me a shot to remember And you can take all the pain away from me A kiss and I will surrender The sharpest lives are the deadliest to lead A light to burn all the empires So bright the sun is ashamed to rise and be In love with all of these vampires So you can leave like the sane abandoned me [2x]
