

Ego Trippin'

Mýa

I was ego tripping

Baby, I know that I was ego tripping
Then you threw me off, show me that I was slipping
By running my mouth and spas it out but I wanna turn it all around
Baby, I know that I was ego tripping
Then you threw me off, show me what I was missing
You come back home, it's gonna be on 'cause I'm turning off the phone
We'll be making up all night long

I had, had too many drinks and you know where that
You know where that leads to when my feelings get ahead of me
I start saying, saying things I don't really mean
It's more of me and I'll just straight lose my mind because of you
Because you ain't here by my side, I'm so messed up
I know I said some stupid things last night
I hope it's not too late for making it alright

Baby, I know that I was ego tripping
Then you threw me off, show me that I was slipping
By running my mouth and spas it out but I wanna turn it all around
Baby, I know that I was ego tripping
Then you threw me off, show me what I was missing
You come back home, it's gonna be on 'cause I'm turning off the phone
We'll be making up all night long

How could, how could I allow my friends of all the
Of all the Girl, you deserve better than that stop and think about the facts
And all I did, did was forget, forget about all the good you have done and focus
I focused on everything that hurt me so, what made me blow
Hopes and steam, even though I didn't really mean it
Even if my friends tell me, I like to have a last word
You should know that by now, I never wanna hurt you
Don't even know how to apologize, have to make the first step
I was tripping yeah, but I just wanna make it up to you

Baby, I know that I was ego tripping
Then you threw me off, show me that I was slipping
By running my mouth and spas it out but I wanna turn it all around
Baby, I know that I was ego tripping
Then you threw me off, show me what I was missing
You come back home, it's gonna be on 'cause I'm turning off the phone
We'll be making up all night long

I know I was wrong for what I did and I know I was wrong for what I said
Just asking, just asking let me make it up to you, can we start over again
See I know I'm not perfect but I gotta let you know you're worth it
'Cause I see you haven't gotten over this, just asking you to forgive, I'm so sorry baby

Baby, I know that I was ego tripping
Then you threw me off, show me that I was slipping
By running my mouth and spas it out but I wanna turn it all around
Baby, I know that I was ego tripping
Then you threw me off, show me what I was missing
You come back home, it's gonna be on 'cause I'm turning off the phone

We'll be making up all night long

I didn't mean it, no
