

# That's Why I Wanna Fight

Mýa

We fight all day, make up all night  
Our love's up and down  
It makes the mood just right  
For us to do, what I love to  
So if I pick a fight, you know what I'm up to....  
Don't shake your head baby instead  
Give into me this fight  
You won't forget  
I promise you when we're through  
You won't hesitate to say I'm sorry boo

I just want to make up  
'Cause I want you so much  
That's why we have to stay  
Getting into it, some days  
Never endin' it  
So don't get mad at me  
Sometimes I get the strangest needs  
That's why I turn to you, so you can  
Handle it, baby, you're the man for it...

We gotta make up tonight  
That's why I wanna fight you  
Break the rules  
So we can get it right  
And I'll show you how I do  
I wanna fuss and fight  
Then make it up tonight

I just want to make up  
'Cause I want you so much  
That's why we have to stay  
Getting into it, some days  
Never endin' it  
So don't get mad at me  
Sometimes I get the strangest needs  
That's why I turn to you, so you can  
Handle it, baby, you're the man for it...

We gotta make up tonight  
That's why I wanna fight you  
Break the rules  
So we can get it right  
And I'll show you how I do  
I wanna fuss and fight  
Then make it up tonight
