That's Why I Wanna Fight

We fight all day, make up all night Our love's up and down It makes the mood just right For us to do, what I love to So if I pick a fight, you know what I'm up to.... Don't shake your head baby instead Give into me this fight You won't forget I promise you when we're through You won't hesitate to say I'm sorry boo

I just want to make up 'Cause I want you so much That's why we have to stay Getting into it, some days Never endin' it So don't get mad at me Sometimes I get the strangest needs That's why I turn to you, so you can Handle it, baby, you're the man for it...

We gotta make up tonight That's why I wanna fight you Break the rules So we can get it right And I'll show you how I do I wanna fuss and fight Then make it up tonight
