

Welcome to My World

Mýa

If you want to get to know me
First class, lights, got a show to be at
Probably over in Italy
I bring it back home to the DMV yeah
Pop a hit sittin' at the boardroom table
Coulda did it win but I got my own label
Long as I get mine, you'll get yours yeah

It don't matter where we go
It don't matter what we do
Wherever and however you like it
It's whatever just know we'll be good
If ever we get low
Don't worry, we'll get more
You know that I'm a boss so I'll be on my grown

Come and welcome to my world
I know you like what you see, yeah
Yeah, you know that I'm that girl
And if you're rockin' with me, yeah baby
We could be high class sittin' on a boat
I could show you things you've never seen before
I still keep it hood bet you ain't even know
Welcome to my world

So you trying to get to know me
Gotta take it slow, be easy
Imma need you to talk to me, walk with me
Until we find my flow
And if we get it right I'mma lace you with labels
Give it all night even on the kitchen table
As long as I get mine, you'll get yours

It don't matter where we go
It don't matter what we do
Wherever and however you like it
It's whatever just know we'll be good
If ever we get low
Don't worry, we'll get more
You know that I'm a boss so I'll be on my grown

Come and welcome to my world
I know you like what you see, yeah
Yeah, you know that I'm that girl
And if you're rockin' with me, yeah baby
We could be high class sittin' on a boat
I could show you things you ain't never seen before
I still keep it hood bet you ain't even know
Welcome to my world

From the streets of DC
Representing out here for PG
All the way out to Waikiki
Abu Dhabi
You know that they rockin'
You know that they rockin' with me
So welcome to my world

Hold it down for all my girls
Yeah we all cheer still
So when you're ready for the real thing

Come and welcome to my world
I know you like what you see, yeah
Yeah, you know that I'm that girl
And if you're rockin' with me, yeah baby
We could be high class sittin' on a boat
I could show you things you ain't never seen before
I still keep it hood bet you ain't even know
Welcome to my world
