

Do It Again

Nada Surf

Well I'd snap to attention if I thought that you knew the way
I'd open my mouth and find something smart to say
I bought a stack of books out and didn't read a thing
It's like I'm sitting here, waiting for birds to sing

Lets do it again
Come on,
come on, lets do it again,
Please,
Please, lets do it again
Come on,
Come on, lets do it again,

The hum of the clock is a far away place
The azalea air, holding your face
You're lying down and the moon is sideways
(oh the habit, it's so cold it never gets old oh)
It's like I'm sitting here waiting for birds to sing

I spend all my energy staying up right
And I like the masked noise quiet of your breathing nearby

Lets do it again
Come on,
come on, lets do it again,
Please,
Please, lets do it again
Come on,
Come on, lets do it again,

I want you lazy science
I want some peace
Are you the future
Show me the keys

I spend all my energy walking up right
And I like the masked noise, quiet of your breathing nearby
When I , accelerate , I remember why it's good to be alive
Like a twenty five cent game

Maybe this weight was a gift
Like I had to see what I could lift
(I spent all my energy walking upright)
Maybe this weight was a gift
Like I had to see what I could lift
(I spent all my energy walking upright)
Maybe this weight was a gift
