

## Give It Up

Nadia Ali

Sweet september, where'd you go  
I was hoping someone knows  
Have you missed me  
Was I there  
I was dreaming someone cared  
Now hear me out  
I was the one  
I waited for you  
To get what is due  
I want it from you  
So will you give it up  
I want you to move  
Can you feel the love  
I could haunt you, listen clear  
Remember my voice  
In you ears  
In your bedroom  
In your car  
In the movies  
In your heart  
So feel me out, 'cause I'm still the one  
I gave it to you  
And still know how to  
I won't let you forget my name  
I am part of the bigger game  
I can load it in your mind  
I won't ever fade in time  
Have you heard me now  
'Cause I'll be the one  
I'll take it from you  
However you choose
