

# Sweetest High

Nadine Coyle

Whenever your gone gone, they way at the door and everything's hurting like  
A bore

In the ocean fills like I am gonna drown  
Someone save me someone has got to save me now  
I am hunger for your energy  
Your touch I need so desperately  
Your love is the only melody  
I need to feel alive  
I gotta catch your high  
Forget the night is just you and I  
On the sweetest high  
Do feel alive  
I gotta catch your high  
Forget the night is just you and I  
On the sweetest high

Tell me that you love me  
Take me on the sweetest high  
I make you want never gonna say goodbye  
I am hunger for your energy  
Your touch I need so desperately  
Your love is the only melody  
I need to feel alive  
I gotta catch your high  
Forget the night is just you and I  
On the sweetest high  
Do feel alive  
I gotta catch your high  
Forget the night is just you and I  
On the sweetest high

Feel alive  
I gotta catch your high  
Forget the night  
On the sweetest high  
Feel alive  
I gotta catch your high  
Forget the night  
On the sweetest high

I need to feel alive  
I gotta catch your high  
Forget the night is just you and I  
On the sweetest high  
Do feel alive  
I gotta catch your high  
Forget the night is just you and I  
On the sweetest high

I need to feel alive  
I gotta catch your high  
Forget the night is just you and I  
On the sweetest high  
Do feel alive  
I gotta catch your high  
Forget the night is just you and I

On the sweetest high
