I bet you give it a little, more time  
It's all that you need  
A moment in mine  
Don't give it a  
Yeah, they chain me up so I won't talk about it  
One needing a minute  
Don't know all about it  
Give it a little  
Give it a more time  
Oh-oh, take it from me

So give a little  
Take it off  
Give another moment  
Take it off me  
Give another  
Take it off  
Give another moment  
Oh take it from me

Give me a little, give me  
Give me a little, give me your  
Give me a little, give me  
Give me a little, give me your

Oh baby give it, more time  
The world doesn't need average to colour the lines  
Who gives a damn, they don't chain me up so don't fuck with it  
One minute maybe can change it  
Baby give it a little, give it more time  
The world will give you something  
Wait don't let it pass  
It's time for them to notice  
Have it in your grasp  
The world will give you something  
Wait don't let it pass, no  
So maybe give it a little  
Give it more time  
Oh-oh, take it from me

So give a little  
Take it off

Give another moment  
Take it off me  
Give another  
Take it off  
Give another moment  
Oh take it from me  
(Take it from me)

The world will give you something  
Have it in your grasp  
The world will give you something  
Have it in your grasp  
Don't wait for them to notice  
Make it your own path  
The world will give you something  
Have it in your grasp, oh

So give a little  
Take it off  
Give another moment  
Take it off me  
Give another  
Take it off  
Give another moment  
Oh take it from me

Give me a little, give me  
Give me a little, give me your  
Give me a little, give me  
Give me a little, give me your
