

# How I'd Love to Love You

Nat King Cole

How I'd love to love you  
How I'd love to kiss you  
How'd I'd love to have you  
For my very own

Will you ever want me  
The way I wanted you  
Then say you'll always be with me  
Till life is through

How I'd love to love you  
There's no one above you  
Let my arms enfold you  
Through the cunning years

Though my lonely heart will always sing this song  
Darling, how I'd love to love you from now on

Though my lonely heart will always sing this song  
Darling, how I'd love to love you  
How I'd love to love you  
How I'd love to love you from now on
