

World of No Return

Nat King Cole

Yes, you keep asking for it
And there comes a time when you find yourself falling back on y
our dreams
And in your dreams, there's always a girl
A very special girl
And if by some miracle she should become a reality
You know that [?] no going back

I reach for you and I touch the sky
I kiss your lips and a star goes by
And when I hold you it's all clear
I am in heaven when you are near

You are an angel, what can I do?
I'll never leave you my whole life through
I'm in a world of no return
And there's no return from you

I'm in a world of no return
And there's no return from you
