

## Ask a Woman Who Knows

Natalie Cole

He stays out every night  
And leaves me all alone  
He never tells me where he goes

I'm not the only lonely one  
Just ask a woman who knows

We used to share our troubles  
And the good times too  
Now I'm left with all the woes

I'm not the only sorry one  
Just ask a woman who knows

The days are long  
Oh, but the nights are longer  
I've got the lonest blues

You'd know my only consolation  
Is I ain't got nothing more to lose

So there you have the story  
Of a love gone wrong  
That used to blossom like a rose

Oh, I'm not the only broken heart  
Just ask a woman who knows

Well my only consolation  
Is that I got nothing more to lose

So there you have the story  
Of a love gone wrong  
That used to blossom like a rose

But I'm not the only broken heart  
Just ask a woman and I'm a woman  
Just ask a woman who knows

Oh yeah, ask a woman, ask a woman  
And I'm a woman who knows
