

# I Live for Your Love

Natalie Cole

Stand up, stand on your own  
That's what they tell me  
You can make it alone

Where does it say I have to move  
Far away from you  
To prove I'm strong  
Oh when, all it really proves  
Is I'm lonely without you  
And loneliness has to be wrong

I live for your love  
Every minute  
I live for your love  
want you in it  
I live for your love  
I admit it  
I live for your love

I wake up, with noone to kiss  
Sometimes I wonder (wonder, wonder)  
If I just exists

I know there are people I can see  
Places I can be  
And friends who call

Oh but, what good does it do  
There's no substitute for you  
I want you, or nothing at all

I live for your love  
Every minute  
I live for your love  
want you in it  
I live for your love  
I admit it

I live for your love and your kisses  
You know how I miss it  
Your sweet tender touch  
I need you soo much that I just can't go on anymore  
What I wouldn't give for  
Cause darling

I live for your love  
My baby, baby yeah  
I live for your love, oooohhh
