

## Lovers

Natalie Cole

Everywhere I go, in every face I see  
The sign of love shining so brightly  
Ohh, it's in the air, it's everywhere  
I can feel it in my bones  
People holding hands, making love  
Really, really getting it on

I'm crazy about lovers, beautiful lovers  
Yeah yeah lovers, beautiful lovers  
Everywhere

And everywhere I go I hear people say  
That they wouldn't mind checking it out  
Ahh, getting on down  
Don't you know that life can be beautiful  
Life can be wonderful when you can always have  
That special someone around?

And I'm crazy about lovers, ooh beautiful lovers  
Don't you know that they're everywhere?  
Lovers, beautiful lovers  
Everywhere, everywhere  
Everywhere, everywhere in the air

If you like romancing and you don't want no dancing  
Then check this groove out baby, you'll see  
It is the sweetest sugar that you'll ever taste  
You gotta chase those blues, get over them  
Don't stop now controlling them  
Then you'll find you're shaking them  
Get it all while you can have a ball

There's a feeling and it's catching  
Look what's happening  
Take a trip, make it hip, you might dig it

Beautiful lovers  
Everywhere
