

# Secrets

Natalie Cole

You've got changing faces  
That never leave a clue  
To those hiding faces  
Locked inside of you  
We made love so cool  
You go running off in the night  
To keep things undercover  
But I saw her in the light  
And I discovered your secrets

Secrets in your heart  
You'll hear a knock-knock at your door  
Secrets in your heart  
(Secrets in the dark)  
We'll come a-creepin'  
Secrets

There is no escape  
Don't you know she'll come back to haunt you  
And she will seal your fate  
As my memory will taunt you  
Your mysterious exhibitions  
I couldn't figure out before  
Until I felt her kiss upon you  
She was the key that unlocked the door  
Into the world of your secrets

Secrets in your heart  
You'll hear a knock-knock at your door  
Secrets in your heart  
(Secrets in the dark)  
We'll come a-creepin'  
Secrets

Secrets in your heart  
She'll come a-knock-knocking for more  
Secrets  
Secrets in the dark, ooh-ooh-ooh  
(Voices in the dark call out your secrets)

I wouldn't find out your secrets

Secrets in your heart  
You'll hear a knock-knock at your door  
Skeletons that you hide inside  
Will come a-creepin'  
Secrets in your heart

Secrets in your heart  
You'll hear a knock-knock at your door  
Secrets in your heart  
(Secrets in the dark)  
We'll come a-creepin'
