This Morning It Was Summer

This morning it was summer I remember long ago A skylark on my shoulder Told me so

This morning we were lovers We were happy and we were gay But now, love You are somewhere far away

You left me in the sunshine Now there is rain Oh, I tried so just to find you But all my searching was in vain

This evening it is winter Yet my heart sounds this alarm This morning it was summer In your arms

Yes, I tried so hard to find you But all my searching was in vain

This evening it is winter Yet my heart sounds this alarm This morning it was summer In your arms Summer in, summer in your arms **Natalie Cole**
