

# Sanctuary

Natalie Imbruglia

Sit down, wait a minute  
I thought we were special  
This town, and everyone in it  
Moves a little faster than the underground  
No time, time is money,  
Feeling like a piece of machinery  
Let down, when I saw you tumble  
Falling over pieces of me

I, I, I wanna be your sanctuary, set you free, set you free [2x]  
]

Foot down, turn it around  
Don't even know where I wanna go  
No sound, and tunnel vision  
All I need is you on my radio  
No time, time is money  
We've been through the traffic to cross the street  
Blue skies, now you're talking  
Gotta get the shoes off my feet

[Chorus]

[Bridge]

I wanna lead you and follow you  
I wanna hold you and keep it true  
So many things that I wanna do  
With you

Last night under the light  
I thought we were special  
Your smile, dance for a while  
I'm here to help you to keep it

To keep it, to keep it, to keep it

[Chorus (2x)]

[Bridge]
