

## Almost in Love

Nate Dogg

I was almost head over heels  
I was almeost the man of your dreams  
And you almost had me sprung  
You were almost my only one

Just about had me hooked, 'til I had to take a second look  
Almost in love  
Just about had me hooked, 'til I had to take a second look  
Almost in love

Girl you almost made me change my code  
And you almost made my pockets grow hoes  
Not only did you almost  
Make me buy you gold  
Downtown you almost make me go

Just about had me hooked, 'til I had to take a second look  
Almost in love  
Just about had me hooked, 'til I had to take a second look  
Almost in love

The roses we picked just yesterday  
Seemed to have wilted away  
And we've been on the ground  
Looking for a four-leaf clover but there's been no luck  
Baby I guess it's over  
But we almost make it to the finished line called love  
Almost and there's no need to raise our voices  
Unless we're singing in harmony  
But we're not 'cause there's no harmony  
But we almost make it Almost

Almost in love  
Almost in love  
Almost in love  
Almost in love
