Nate Dogg

All I know and all I do is  
D-P-G with the rest of my crew  
We thru with Milken Milli Vanilli  
Silly Niggaz who be rappin but they really be actin'  
I'm smackin' niggaz in they face  
For the 9-8  
My DJ Warren G and my homeboy Nate  
The game won't wait  
So we paper chase  
And watch out for them suckas who paper-hate  
Try to drop some shit to keep you straight  
Keep my niggaz on a mission  
But my success, oh yes it's fresh  
Here's a toast to my LB for life  
You can call me when you wanna  
Or can catch me in the Navigator bendin' in the corner  
I representin', just like Billy Clinton  
I smack a bitch for my chips and dip

Once upon a time in the land of the foolish man  
There lived a man who claimed to be foldin' aces in hand  
He played wrong once and played 'em twice  
And played 'em wrong again  
Now it's my turn to play the game  
And I guarantee I win  
Very best I have to be and I hope you understand  
I got my game from Gangstaville  
Eastside of Gangsta Land

Well you can give me half your loot, nigga  
Or else I'ma shoot, nigga  
I do what Gz do- I ride  
I slide, I drips double 4's fool  
Where's the clips  
You'll find I hit your spine  
And shake your hips with hollow tips  
It's the modern day me  
With the state of art modern day heat  
Mutherfuckin' modern day G  
No good for for sho good  
Put this nigga on the hood  
And let me put him back the fuck off  
Like that, you fuckin' with the Kobe Bryant of rap  
With a Mack 11 cocked back ready for sure, ready for war  
For real enter if you will
