

This Month's Messiah

Nazareth

I'm just a pilgrim here looking for holy ground
I'm just a body lost but my soul can be found
How many miles to go
How many miles to babylon

I don't know where to turn when answers all fade clear
But I must find a place there's only questions here
How many miles to go
How many miles to babylon
How many miles to go
How many miles to babylon

I feel...feel like I'm on trial
Who made a judge of you
Are you this month's messiah

I am a fightin' man tired of living under the gun
But am I looking for love or am I looking to run

How many miles to go
How many miles to babylon
How many miles to go
How many miles to babylon

I heard...I heard it on the wire
That it's all up to you
Are you this month's messiah

How many miles to go
How many miles to babylon
