

Watch Your Back

Nazareth

We got Bloods and Crips
The colours are flying
In the barrio, the people are dying
Thugs and drugs and carjacks too
High School kids with gang tattoos

You better watch your back boy
Gunshots crash
Because you're under attack boy
The blue lights flash.....hide your stash

The turf wars rage
El Diablo has throne
Megra turn their backs
cos we're killing our own

You better watch your back boy
Gunshots crash
Because you're under attack boy
The blue lights flash.....show me the cash

By the shrine of Santa Maria of the four lane
Please pray for us
By the height of the walls in Arizona
Make way for us

The girls go to church
The boys go to jail
If you're looking for blood
Just follow the trail

You better watch your back boy
Gunshots crash
Because you're under attack boy
The blue lights flash.....under the lash

By the shrine of Santa Maria of the four lane
Please pray for us
By the height of the walls in Arizona
Make way for us

You better watch your back boy
Gunshots crash
Because you're under attack boy
The blue lights flash.....under the lash

By the shrine of Santa Maria of the four lane
Please pray for us
By the height of the walls in Arizona
Make way for us.....the blue lights crash
