

# Anytime

Neil Finn

See a dog upon the road  
Running hard to catch a cat  
Car is pulling to a halt  
Truck behind me doesn't know  
Everything is in the balance  
Of a moment I can't control  
And you're sympathetic strings  
Are like the stirrings in my soul

I could go at anytime  
There's nothing safe about this life  
I could go at anytime

Find the meaning of the act  
Remember how it goes  
Every time you take to water  
You swim against the flow  
And the world is all around us  
And the days are flying past  
And fear is so contagious  
But I'm not afraid to laugh

I could go at anytime  
There's nothing safe about this life  
I could go at anytime

Anytime  
Come without a warning  
Anytime  
It could be so easy  
A walk in the park  
Maybe when I'm sleeping  
Anytime  
See the clouds come over  
Rain or shine  
I make you so unhappy  
So lets make it right

I feel like I'm in love  
With a stranger I'll never know  
Although you're still a mystery  
I'm so glad I'm not alone

And I won't let it go  
Of the first clear moment  
I saw you  
Make it so easy to fly in the night  
I could go at anytime  
There's nothing safe about this life  
I could go at anytime
