

# U Know U Want To

Nelly

You know you want to  
You know you want to  
You know you want to  
You know you want to  
You're scared  
You know you want to  
Sh', yeah

Listen, you acting like you gonna leave me girl  
But you know you love me  
Said the last time was the last time but you wanna fuck  
You know you want to  
You know you want to yeah

'Cause you think about me every night and day  
Don't you worry shorty cause you know I feel the same  
Don't leave me girl  
Don't you leave me girl  
Don't leave me girl  
Don't you leave me girl  
Wanna take me back but your friends ain't  
Just ignore what your friends say  
Forgive me and forget about it  
But it's too hard to forget about it  
Nobody's saying yes but you mind saying no  
Baby girl you can stay you don't have to go  
Nowhere, nowhere  
You can stay right here cause

You know you want to  
You know you want to  
You know you want to  
You know you want to  
You're scared  
You know you want to  
Sh', yeah

Now you're saying that we're over  
Do you plan to leave me?  
But I heard that but fuck girl I don't believe it  
You know you want to  
You know you want to yeah

'Cause you think about me every night and day  
Don't you worry shorty cause you know I feel the same  
Don't leave me girl  
Don't you leave me girl  
Don't leave me girl  
Don't you leave me girl  
Wanna take me back but your friends ain't  
Just ignore what your friends say  
Forgive me and forget about it  
But it's too hard to forget about it  
Nobody's saying yes but you mind saying no  
Baby girl you can stay you don't have to go  
Nowhere, nowhere  
You can stay right here cause

You know you want to  
You know you want to  
You know you want to  
You know you want to yeah

'Cause you think about me every night and day  
Don't you worry shorty cause you know I feel the same  
Don't leave me girl  
Don't you leave me girl  
Don't leave me girl  
Don't you leave me girl

Condos, penthouse put yo name on the E  
Sunday, Sunday I gave you them keys  
Keys to every car took you anywhere you want  
I bought you anything you saw  
I don't even know who you are  
Here with me  
You say you're done with me but that ain't so  
If you wanted me to leave  
Then let me know  
You're laying here in my bed  
My hand between your legs  
Took back everything you said

'Cause you think about me every night and day  
Don't you worry shorty cause you know I feel the same  
Don't leave me girl  
Don't you leave me girl  
Don't leave me girl  
Don't you leave me girl
