

## More Than Friends

Neon Hitch

The moment I wake up  
It's time to leave  
Why won't the clock stop  
And wait for me  
My heart is saying go go  
But my mind is saying no no  
My locked up the fantasy  
You're the only key

Hey baby let's be more than friends  
We could be more than friends  
You could be my boyfriend  
Hey baby let's be more than friends  
We could be more than friends  
I could be your girlfriend  
If I told I loved you  
Would you be my boyfriend  
If you told me you loved me  
I would be your girlfriend

Under the bed sheets  
We don't sleep  
I gotta a secret  
I Don't wanna keep

Hey baby let's be more than friends  
We could be more than friends  
You could be my boyfriend  
Hey baby let's be more than friends  
We could be more than friends  
I could be your girlfriend  
If I told I loved you  
Would you be my boyfriend  
If you told me you loved me  
I would be your girlfriend
