Suns Irrupt

Neon Indian

Old love eroded from time You'll remember me soon Last stars, I follow them nowhere They follow me too

Suns irrupt sun irrupt suns irrupt And I wake up and I wake up

Bloodlines erased from design
Before there was you
When you were swallowed in earth
I slept in a womb

Suns irrupt sun irrupt suns irrupt And I wake up and I wake up

Suns irrupt sun irrupt suns irrupt
And I wake up and I wake up

Lost and it had to happen sometime Gone but I'm waiting to be someone

Old stars, I follow them nowhere they follow me too Old stars, I follow them nowhere they follow me too
