Reason

When the puzzle connects It's like you never forget The way it's got to be It's nobody's concern Cause they don't know how it burns When you're not here with me, whoa So wrap my wrong in the sky Cause I can never deny this feeling How can I ever stop When I don't wanna give up up up up,

This is my reason, reason, reason This is my reason, reason, reason This is my reason, reason, reason This is my reason, reason, reason

Cause I get you, cause I get you And you get me, and you get me It's that simple, it's that simple Don't matter where we are The feeling never stops

When the puzzle connects It's like you never forget The way it's got to be It's nobody's concern Cause they don't know how it burns When you're not here with me, whoa So wrap my wrong in the sky Cause I can never deny this feeling How can I ever stop When I don't wanna give up up up up,

This is my reason, reason, reason This is my reason, reason, reason This is my reason, reason, reason This is my reason, reason, reason
