

# Self-Taught Infection

## Neurosis

how can we be so blind?  
once we had a world  
untainted land to toil our lives  
but then we...

lost control

of our greed and need  
lost control  
now what have we got?

our world's a disease  
the germ is us  
our minds have...

we taught our children  
hate and love  
we taught our children  
to love, to hate

confined inside our minds  
entangled in greed  
we search for unity

[ch.]
