

# Been So Long

New Edition

Ladies and gentlemen it's about that time  
The newest addition to the bad boy family  
Ralph, Ronnie, Ricky, Mike, Johnny  
New edition

Oh baby, yeah  
No, no, no, no, no  
Say it's been so long, oh no

And it feels like it was yesterday  
But now we're here to stay  
See we rock this way, every time we hit the stage  
Ain't nothing changed  
See it's all the same  
When we start the show

Everywhere we go  
People show us love  
Just can't get enough  
In two thousand and three  
It's only a new gain come around our way  
All we wanna do is spread love

It has been so long  
And we can't let you down  
It has been so long

We won't ever stop  
Doin' what we do  
And that givin' you  
Something that you can feel  
So don't you ever doubt  
'Cause we gon' turn it out  
And bring down the house  
And we only just begun

We rock from town to town we always put it down  
We only wanna see you out your seat no sitting down  
So people gather round to hear that NE sound  
We got love for all of you, yeah yeah

It has been so long  
And we can't let you down  
It has been so long

How can we let y'all know, know that we  
We just can't let this go  
Music is our love  
Can't stop it now, ain't no other way  
Way for us to go  
Keep on giving love

Put your hands in the sky  
If you wanna fly on a natural high  
It's been so long since we got on  
Can't you see we're in it for the long run

It has been so long  
And we can't let you down  
It has been so long

It has been so long  
And we can't let you down  
It has been so long

It has been so long  
And we can't let you down  
It has been so long
