

It Never Snows In Florida

New Found Glory

Distance means nothing to me.
It only makes me want to see you longer.
My words just like a mentioned kiss
With every letter they are growing stronger.

Days go by.
Feelings, they go on.
Unfortunately, without you
It will never snow in florida.

It's best to take your time
Conversation cuts like glass.
I'm the calm before the storm.
I'm the second before the crash

I've been between myself for days.
I'm the hero of the year.
