

Sister Ray said "I love you"
Sister Ray said "I love you"
Sister Ray said "I love you"
Sister Ray said "I love you"

Sister Ray said "I don't know why
People grow up, and then they die"
Sister Ray said "I don't know why
I stay at home on my own and cry"
Sister Ray said "I love you"
Sister Ray said "I love you
That's all that matters
That I love you
That's all that matters
That I love you
That's all that matters
That I love you"

Sister Ray said "Oh you mean so much to me
'cause I love you
'cause your name begins with "B!"
I said "That's not a very good reason"
I said "That's not a very good reason"

Sister Ray said "I love you"
Sister Ray said "I love you"
Sister Ray said "I love you"
Sister Ray said "I love you"

Sister Ray said "I love you
Because you mean so much to me"
When I was a very young boy
I reached the age of three
Then something happened to me
Then something happened to me...
