

Waiting For The Siren's Call

New Order

1. What does this ship bring to me
Far across the restless sea
Waiting for the sirens call
I've never seen it here before
 2. There she plies the lonely trail
Getting through the breaking winds
Drifting slowly from the coast
She is lost forever more
 3. We all want some kind of love
But sometimes it's not enough
To the wall and through the door
With a stranger on the shore
- R: I won't desert you
I don't know what to say
I really hurt you
I nearly gave it all away
- I've got it all
Cause you were not the one
I don't know where to turn when you're gone
When you're gone
4. Gotta catch the midnight train
First to Paris then to Spain
Travel with a document
All across the continent
 5. City life is flying by
The wheels are turning all around
Get on board we can't be late
Our destination cannot wait
 6. All the stars and all the worlds
Filling up this universe
Can never be as close as us
We never shine as bright or??
- R: I won't desert you...
- R: I won't desert you...
- *: How many times must I lose my way, hey
How many words do I have to say, hey
What can I do just to make you see
That you're so good for a man like
A man like me
