

Razor

Making headlines and headstones
Breaking hearts and breaking bones
Your life's a performance, so let the cameras role

Razor

You know it's all too good to last
If it's not too much to ask
Slow down, slow down, slow down before you crash
Oh, before you crash

Razor

You're such a fatal attraction
Your friends are only for fashion
We may last for a while, but we'll go out of style

Razor

You know it's all too good to last
If it's not too much to ask
Slow down, slow down, slow down before you...

Crash, crash into my arms

Put down your guard disarm, disarm
You think this whole world's against you
It's never your fault, we're the ones with the issues

Crash, crash into my arms

Put down your guard disarm, disarm
You think this whole world's against you
It's never your fault, we're the ones with the issues

Crash

Slow down before you

Crash

Slow down, slow down

Crash

Slow down, slow down, slow down

Razor, razor, razor

Crash, crash into my arms

Put down your guard disarm, disarm
You think this whole world's against you
It's never your fault, we're the ones with the issues

Crash, crash into my arms

Put down your guard oh disarm, disarm
You think this whole world's against you
It's never your fault, we're the ones with the issues

You think this whole world's against you

It's never your fault, we're the ones with the issues
