

All the Way

Newsboys

We're joining with You God
Everything You're doing
Your fire is in our hearts
Burning for the broken
We open wide our arms
A refuge for the hurting
Your mercy is our song
We're joining with You God

We're going all the way
We're gonna walk by faith
Giving You everything, everything, everything
We're going all the way

Our strength, our victory
We can not be shaken
A light for all to see
Shining in the darkness
We can't contain Your love
That purchased us our freedom
Salvation is our song
Our strength, our victory

We're holding nothing back
Giving You everything, everything
We're joining with You God
You can do anything, anything
