

## Here We Stand

Newsboys

We can see it, God You're moving  
We can feel it, in our bones  
Turn our hearts to all You're doing  
With a shout we cry  
With a shout we cry

Open wide heaven's gates  
Let your glory fill this place  
Here we stand in awe  
Here we stand in awe  
Lifting high every heart  
Giving You every part  
Here we stand in awe  
Here we stand in awe

We are filled with expectation  
As we're reaching for Your throne  
There's an anthem, hear it rising  
With a shout we cry  
With a shout we cry

There's nothing like Your presence God  
There's nothing like Your presence God  
There's nothing like Your presence God  
There's nothing like Your presence God
