Been Thinking About It

Newton Faulkner

If I was lost
Lost at sea
I'd grab the flag and I'd swim all the way home
Cause it's it in my genes

I've been thinking 'bout it
I've been thinking 'bout it
I've been thinking 'bout it
I've been thinking 'bout it

If I like you,
And you like me,
Why the hell are we wasting our time?
Are you too afraid to cross that line?

I've been thinking 'bout it
I've been thinking 'bout it
I've been thinking 'bout it
I've been thinking 'bout it

If this was to end right now
I'd go with a grateful smile

I've been thinking 'bout it
I've been thinking 'bout it
I've been thinking 'bout it
I've been thinking 'bout it

If life's so short,
Then what's the cost
Of working day and night five days a week
You say you hate it but it makes ends meet

I've been thinking 'bout it
I've been thinking 'bout it
I've been thinking 'bout it
I've been thinking 'bout it

My time here on earth could be
A fragile and fleeting thing
But if this was to end right now
I'd go with a grateful smile

I've been thinking 'bout it
I've been thinking 'bout it
Been thinking 'bout it
I've been thinking 'bout it

If I like you,
And you like me
Why the hell are we wasting our time?
