

# If This is It

Newton Faulkner

No-one move  
No-one speak  
Please don't say that it's just me, it's not just me

I even though  
I won't forget  
Just don't want this to end just yet (not just yet)

If I had one chance to freeze time  
To stand still and soak in everything  
I'd chose right now.

If I had one night where sunshine  
Could break through and show you everything  
I'd choose right now  
Before the fears that I once had  
Start coming back again

If this is it  
All we have  
If I know I've done all I can (If this is it)

We can't stop  
And start again  
We can't Fast forward to the end (This is it))

If I had one chance to freeze time  
To stand still and soak in everything  
I'd chose right now.

If I had one night where sunshine  
Could break through and show you everything  
I'd choose right now  
Before the fears that I once had  
Start coming back again

I can take the slings and stones and fire  
Because I know you'll make it all worth while  
Every time I fold, dissolve, I'm lying on the ground  
You drag me up again, and again

Again,  
Oh please come back again x2

I'm so scared  
I might forget  
I don't want this to end just yet, not just yet

If I had one chance to freeze time  
To stand still and soak in everything  
I'd chose right now.

If I had one night where sunshine  
Could break through and show you everything  
I'd choose right now  
Before the fears that I once had  
Start coming back again
