

So Much

Newton Faulkner

I wish you could see me
I'm flying, still don't know how
I owe you so much
I guess you knew that

I know that you would be proud of me
I hope you are
I owe you so much
I hope you knew that

There's so much of you in everything I do
Just wish that you were still around
But I'm following through, just could do so much more
If you were still around, were still around

I'm still here, still fighting
Still crazy, still trying
I owe you so much
I hope you knew that

There's so much of you in everything I do
Just wish that you were still around
But I'm following through just could do so much more
If you were still around

It's one thing time will not erase
My life would not have been the same
I miss you, I could use a friend
To run some things by you now and then

There's so much of you in everything I do
There's so much of you in everything I do
Just wish that you were still around, were still around

I wish you could see me
I'm flying

There's so much of you in everything I do
Just wish that you were still around
But I'm following through just could do so much more
If you were still around

It's one thing time will not erase
My life would not have been the same
