

Don't Make Me Choose

Nick Jonas

Don't make me choose
Between my left hand and my right
Don't make me choose
Between my love and my life
Don't make me choose

I'll be there
You got a man who knows exactly what you need
And I got a plan
It's hard to see

Don't make me choose
Between my left hand and my right
Don't make me choose
Between my love and my life
Don't make me choose

If you really love me

If you wanna talk
I'll listen
Give me time
Put your mind at ease

Don't make me choose

Don't make me choose
Between my left hand and my right
Don't make me choose
Between my love and my life
Don't make me choose
