

Bang

Nikki Yanofsky

Looking out the window through the frame frame frame
All these passerbyers look the same same same to him
Paying close attention can't let him get away way way
He don't need a picture just a name

He's the one they always call
And the one I've fallen for
Such a dangerous allure
Cuz there's one thing, one thing that he's known for
Bang bang bang bang my babe will get ya
Bang bang bang bang he'll send you to your
Grave grave grave grave there's nothing that can
Save save save save your soul

Most wild forces can't be tamed tamed tamed
Better duck your head down as he aims aims aims for it
Killin for a livin', such a crying shame
But evils such a good dog when its chained chained chained

Such a dangerous allure
Cuz there's one thing, one thing that he's known for

Bang bang bang bang my babe will get ya
Bang bang bang bang he'll send you to your
Grave grave grave grave there's nothing that can
Save save save save your soul

If a price is on your head
You can be your dead before you hit the ground
And if you sense he's on your tail, you can try to run
But all have failed

Bang bang bang bang my babe will get ya
Bang bang bang bang he'll send you to your
Grave grave grave grave
There's nothing that can save you now
Save save save save your soul
