New Year's Eve

Nina Gordon

Normally I'd be french-twisting my hair And selecting the right earrings to wear Oh it's a special evening for most Normally I'd be proposing a toast But not this year

Because I'm here the party's all around me You're there indifference has found me I know it's not in fashion
Wearing heartache on your sleeve
But I'm here and you're there so who cares
What I wear on New Year's Eve

Normally I'd be knee-deep in champagne
I'd kick my heels up until neighbors complain
Oh it's a glamorous evening for most
And normally I'd be upstaging the host

But not this year

Because I'm here the party's all around me

You're there indifference has found me

I know I should have dressed up

But I just can't make believe

Now I'm here and you're there so who cares

What I wear on New Year's Eve

If you're flirting with some other girl tonight I'm not flirting with some other guy
I just keep thinking how last year
At midnight you blew me away
With the resolution that you made

I'm here the party's all around me
You're there indifference has found me
And tonight before the ball drops
I'll grab my coat and leave
I'm here and you're there so who cares
What I wear on New Year's Eve
I'm here and you're there so who cares
What I wear on New Year's Eve
