

Now I Can Die

Nina Gordon

He takes me everywhere he goes
and he goes everywhere he likes
to try on all my clothes
but not my underwear
and he never hates me
just wants to levitate me
now i know the secret of the world
I am the girl
and he is the guy
I never dared to be simple and wise
he opened up my eyes
I understand everything
and now I can die
he gives me everything he's got
and he's got everything
he calls me on the phone a lot
he's got a special ring, yeah
he really loves me,
sweethearts and turtledoves me
now I know the meaning of that word
I'm not trying to say
that I don't want to live
'cause I do
I've got more to take
I've got some more to give
you know I do but
if tomorrow my number should be called
I won't be sad
I won't feel bad at all
