

Reptile

Nine Inch Nails

she spread herself wide open to let the insects in
she leaves a trail of honey to show me where she's been
she has the blood of reptile just underneath her skin
seeds from a thousand others drip down from within

oh my beautiful liar
oh my precious whore
my disease my infection
I am so impure

get it

devils speak of the ways in which she'll manifest
angels bleed from the tainted touch of my caress
need to contaminate to alleviate this loneliness
I now know the depths I reach are limitless

oh my beautiful liar
oh my precious whore
my disease my infection
I am so impure
